

# BRAYAN MONTAÑO BELTRE

## Software Developer

< [brayanmbeltre@gmail.com](mailto:brayanmbeltre@gmail.com) // [GitHub](#) // [brayanmbeltre.com](http://brayanmbeltre.com) />

I'm a software developer from the Dominican Republic, focused on Front-end & Web Development. I love bringing designs alive and creating systems that allow users to digest the information and guide them in an immersive experience.

### WORK EXPERIENCE

#### Front-End Developer

Oficina Gubernamental de Tecnologías de la Información y Comunicación (OGTIC) 2021 – Present

// [www.gob.do](http://www.gob.do)

It was achieved that all the country's services are standardized through a digital platform, thus achieving transparency and reducing the time to carry out government processes.

// National Scholarship System

Creation of the portal [becas.gob.do](http://becas.gob.do) used by more than 200,000 Dominican and international citizens to apply for national and international scholarships. Development of the back-office used by dozens of institutions in the Dominican Republic to create, configure, manage, publish and approve scholarships for citizens who apply for them.

// Datos Abiertos

Portal that uses an API offered by the DMS CKAN to show the open data of the institutions of the Dominican Republic.

// Other projects

E-ticket, Observatorio MAP, Botón Verde, Sistema de Diseño Dominicano.

#### UI Engineer

Contract 2019 – 2021

// Benchmarking, research and information architecture, as well as review and prototyping for user testing.

#### IT Support Specialist

Alorica 2021

// I gained experience working with the IT department of a large multinational company.

#### Web Developer

Freelance 2019 – Present

// Websites development using React, WordPress, Squarespace, Webflow and Django.

### EDUCATION

#### Software Engineering

Universidad APEC (UNAPEC) 2019 – Present

#### Software Technologist

Las Americas Institute of Technology (ITLA) 2017 - 2018
